Jefferson Trial Strike

- 706 1795—Large Cent. Exceedingly rare Jeffersonian Head variety (as pictured and illustrated in the "Red Book"—A Guide Book of United States Coins, on page 67).

This interesting and sharply struck bronze piece is uniface; in full large cent size (obverse only) and was made on approximately one inch square lead or babbitt type material. At each corner of the square is a drill hole which indicates to the cataloger that this piece must have been mounted for display purposes. Anyone who is familiar with collecting large cents should know how rare this particular item must be, and an ardent collector should know of its unavailability.

The cataloger at this time of listing must confess that in over 20 years of handling virtually all types of collectors items, this particular specimen is unknown to him or us. Again we repeat, this piece is exceedingly rare or even possibly unique in this form or design.

The original consignor has it priced at \$4,200.00. At this time of writing, The Federal Brand Enterprises, Inc., must go on record as finding this figure fairly stiff for a trial strike but nevertheless, in our humble opinion, for a choice, sharp, exceedingly fine piece which has a rich, deep reddish brown patina, we predict that it may exceed \$1,000.00

Mint Errors

2002	1796—Large Cent. Double struck. The first obverse strike shows a full date with a faint bust under the second sharper full strike which is struck in K.2 position. The first reverse strike shows some faint wording with the second fuller strike more readily visible. (SEE PLATE) Good. Worth	\$100.00	_____
2003	1863—Indian Cent. Double struck. Second strike showing lower left part, with second complete date struck 1/3rd off center in Kolit 9 position. Two full dates are very desirable double strikes in copper-nickel errors. (SEE PLATE) V. Good	\$125.00	_____
2004	1890—Indian Cent. Double struck. Second strike showing AM RIC of AMERICA, is struck 1/5th off center in Kolit 11 position. A small hole was drilled through the center of the second strike which undoubtedly was to be used as a pendant. (SEE PLATE). Ext. Fine	\$75.00	_____
2005	1891—Indian Cent. Double struck. Second strike 1/6th off center in Kolit 3 position. Actually a triple strike as a very faint first strike can be seen with a magnifying glass under the first strike. (SEE PLATE). Prac. Unc.	\$100.00	_____
2006	No Date Indian Cent. Struck 2/3rds off center in Koliit 5½ position. Upper part of Indian's headdress with TATES of STATES shows on the obverse and the same exact part shows on the reverse but incused. Evidently this blank fell over a previously struck cent. Interesting error. (SEE PLATE). Ext. Fine — —	— —	_____
2007	1915-D—Lincoln Cent. Struck 1/6th off center in Kolit 3 position. Mounted in artkraft holder. Prac. Unc.	\$20.00	_____

2009	1920—Lincoln Cent. Double struck. Second strike showing the upper left part, is struck 1/6th off center in Kolit 5 position. Two light scratches on reverse. (SEE PLATE). Ext. Fine	\$60.00	_____

2013	1951—Lincoln Cent. Struck on a silver dime planchet. Test scratches in right field with dent at right edge, caused by a push rod when it became stuck in the rolling machine. V. Fine	\$75.00	_____
2014	1956—Lincoln Cent. Double struck. Second strike showing full LIBERTY, is struck 1/6th off center in Kolit 1½ position. Mounted in artkraft holder. (SEE PLATE). Red Uncirculated	\$30.00	_____

2015	1957—Lincoln Cent. Struck in silver over a 1957 Roosevelt Dime. The date, with some of the Roosevelt dime obverse can be seen under the Lincoln obverse, struck over it, in K.6½ position. A little of the Roosevelt reverse is also visible under the Lincoln reverse which is struck over it in K.5½ position. The edge is completely reeded but not completely sharp. Mounted in a clear plastic 2½ x 3 holder, imprinted in gold \$300.00	_____
2016	1957-D—Lincoln Cent. Struck in silver over a 1957-D Roosevelt Dime. Under the Lincoln obverse can be seen some of the previously struck Roosevelt obverse, even with the date. Some of the Roosevelt dime reverse can be seen on the reverse of the Lincoln Cent. The Cent is struck in K.1½ position over the Roosevelt dime which also has the full reading nearly perfect and sharp. A nice companion piece to the above lot. (SEE PLATE). Brilliant Uncirculated \$300.00	_____
2017	1957-D—Double struck Lincoln Cent. Struck on a silver dime planchet. First strike shows faintly in spots, second strike is struck over it, rotating to K.3½ position. Scarce so. (SEE PLATE). Uncirculated \$175.00	_____
2018	1957-D—Lincoln Cent. Commonly called "Double strike", but really classed as a "Indented Type Error" — a previously struck cent not being completely ejected from the die and another struck reverse — reverse falls slightly over the obverse edge and then in turn, are struck together. This coin shows a incused reverse wreath on the obverse at K.2½ position. (A error variety). Brilliant Uncirculated \$20.00	_____
2019	1958—Lincoln Cent, struck in silver on a dime planchet. Unc. \$100.00	_____
2020	1961-D—Lincoln Cent. Double struck. A flip over strike. The reverse of the second strike is struck over the first struck obverse 90° to K.9. The second strike obverse is struck over the first reverse 90° to K.3. The first strike is somewhat faint, both strikes being somewhat shattered. (SEE PLATE). Brill. Unc. \$35.00	_____
2021	1962-D—Lincoln Cent. Double struck. The obverse of the second strike is struck 180° over the first strike in K.6 position. The reverse is exactly the same duplication of its striking positions. A little of the first strike can be seen under the second strike. (SEE PLATE). Uncirculated \$35.00	_____
2022	194(?)—Lincoln Cent. Double Struck. Second strike showing a second full struck up bust of Lincoln ⅓ off center in K.4 position. The original first struck reverse shows as being struck over another struck cent obverse. This left a incused impression. Quite an unusual error. Mounted in artkraft mounting. (SEE PLATE). V. Fine \$50.00	_____
2023	1893—Liberty Head Nickel. Double struck. Second obverse strike over first obverse in K.12½ position. Second reverse strike struck 1/7th off center in K.5 position. An unusual combination. Obverse shows blurred remains of even more than two dates. (SEE PLATE). Fine \$50.00	_____
2024	1906—Liberty Head Nickel. Partially double struck. A partial flip over strike which means only the reverse is struck 1/8th off center on the obverse in K.8½ position. The first struck reverse fell over another blank nickel planchet, which made a incused reverse impression into the blank resulting in flattening out the reverse strike to be rather faint — —	_____
2025	1919—Buffalo Nickel. Double struck. Second strike showing nearly a complete nickel with a second full date, struck 1/5th off center in K.1. Scarce so. (SEE PLATE). Ext. Fine \$125.00	_____
2026	1936—Buffalo Nickel. Double struck. Flip over strike. Reverse struck on obverse in K.10½ position. Obverse struck on reverse in K.1½ position. (SEE PLATE). Uncirculated \$50.00	_____
